How it works

1  External button for special functions: alert, configuration, synchronization, activation procedure

2  PASS it's installed inside condos, hotels, offices, etc. Workers receives a personal badge

3  Users badge at the beginning and at the end of their service

4  Badging in & out you'll get time frames and duration of presence. You can check them on your tablet or smartphone

Technical features

Main features of the device:

- Real time and / or asynchronous data collection and transmission
- Compact and easy to install (no more than 5')
- Battery level monitoring
- Low power consumption
- Fully customizable firmware and sensor interface

Performance

- RF sensitivity: up to -150 dbm

Application features

- Optional

Firmware

- Sigfox network protocol
- Transmission: up to 144 messages day
- Cryptography: AES128

Consumption and requirements

- Operating voltage: 6 V
- Power supply: 4 1.5V AA type batteries, replaceable
- Duration: up to 3 years

General informations

- Operating temperature: -20°C / 55°C
- Activation in 5 minutes
- Size: 145x96x35 mm
- Protection degree: IP40
- CE conformity
- Sigfox Ready 0U - Certificate P_00D9_BC2F_01
