

Quick start guide

Water leak detector
Wireless IoT

ealloora

ENGLISH

1. Download the App

Download the Ealloora App from Apple Store or Google Play.

Install the Ealloora App and receive notifications on your smartphone in case of water leakage and/or overturn detection.

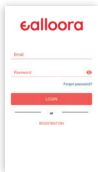

2. Create an account

New Account

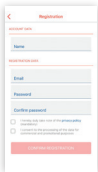

Enter the name, email, password and password confirmation.

Existing Account

If you already have an account, log in with your email and password.

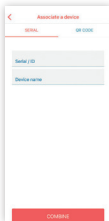

The screenshot shows the login page for ealloora. At the top, the ealloora logo is displayed in red. Below it, there are two input fields: "Email" and "Password". The "Password" field has a red eye icon to its right and a "Forgot password?" link below it. A red "LOGIN" button is positioned below the input fields. At the bottom of the screen, there is a "REGISTRATION" link in red.

The screenshot shows the registration page for ealloora. At the top, there is a back arrow and the word "Registration" in red. Below this, there are two sections: "ACCOUNT DATA" and "YOUR OTHER DATA". The "ACCOUNT DATA" section contains input fields for "Name", "Email", and "Password". The "YOUR OTHER DATA" section contains a "Confirm password" field and two checkboxes with associated text: "I hereby declare that I am the person who is registering" and "I consent to the processing of my data for administrative and marketing purposes". A red "CONTINUE REGISTRATION" button is at the bottom.

3. Register the device

1. On the application home screen, click on the  button to register a device.
2. Insert the Serial/ID code (8 characters) that you will find on the label on the back of the device.
3. Give the device a name.

4. Activation

1. Put the device onto a water-filled plate (2+mm of water). The Leak will beep twice.
2. Remove from water. After 15 seconds, three short beeps announce that the device is armed.
3. Place the device to the area you would like to monitor.

5. Alerts

After overturning or water leakage detection you have 10 seconds (indicated by beeping) to fix the device before the appropriate alarm is sent. When there's no water leakage or displacement detected anymore, an end of event message is sent.

6. Deactivation

To turn the device off, hold it upside-down for 15 seconds. The device will continue to beep until it turns itself off and sends a deactivation message.

7. Receive notifications on your smartphone

Make sure the notifications for the App Ealloora are enabled on your smartphone.

8. Done

Now LEAK is ready to warn you of any water leakage and/or overturn detection.

Done!
Your device is
working!

SUOMI

1. Lataa sovellus

Asenna Ealloora-sovellus ja vastaanota ilmoituksia vesivuodon sattuessa.

2. Luo tili

Uusi tili

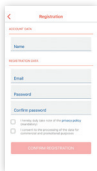

Anna nimi, sähköpostiosoite, salasana ja salasanan vahvistus.

Olemassa oleva tili

Jos sinulla on jo tili, kirjaudu sisään sähköpostiosoitteella ja salasanalla.

The screenshot shows the login page for 'ealloora'. At the top, the 'ealloora' logo is displayed in red. Below the logo, there are two input fields: 'Email' and 'Password'. The 'Password' field has a red eye icon to its right and a blue link that says 'Forgot password?'. Below the input fields is a large red button labeled 'LOGIN'. At the bottom of the screen, there is a link for 'REGISTRATION'.

The screenshot shows the registration page for 'ealloora'. At the top, there is a back arrow and the title 'Registration'. Below the title, there is a link for 'WELCOME BACK'. The main section is titled 'REGISTRATION DATA' and contains three input fields: 'Name', 'Email', and 'Password'. Below the 'Password' field is a 'Confirm password' field. At the bottom, there are two checkboxes: the first is 'I hereby declare that I am at least 18 years old' and the second is 'I consent to the processing of my data for commercial and promotional purposes'. A large red button labeled 'COMPLETE REGISTRATION' is at the bottom.

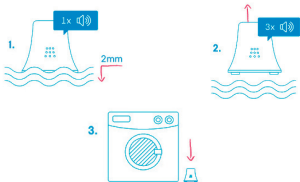

3. Rekisteröi laite

1. Napsauta sovelluksen aloitusnäytössä  laitteen rekisteröimiseksi.
2. Lisää sarjanumero/tunniste (8 merkkiä), joka löytyy laitteen takaosassa olevasta tarrasta.
3. Anna laitteelle nimi.

4. Aktivointi

1. Aseta laite vedellä täytetylle lautaselle (2+mm vettä). Leak piippaa kahdesti.
2. Poista vedestä. 15 sekunnin kuluttua kolme lyhyttä äänimerkkiä ilmoittaa laitteen olevan viritetty.
3. Aseta laite alueelle, jota haluat valvoa.

5. Hälytykset

Vesivuodon tunnistuksen jälkeen sinulla on 10 sekuntia aikaa (piippausten ilmoittamana) korjata laite ennen asianmukaisen hälytyksen lähettämistä.

Kun vuotoja ei enää havaita, tapahtuman loppuviesti lähetetään.

6. Deaktivointi

Sammuta laite pitämällä sitä ylösalaisin 15 sekuntia. Laite jatkaa piippaamista, kunnes se sammuttaa itsensä ja lähettää deaktivoitiviestin.

7. Ilmoitusten vastaanottaminen älypuhelimeen

Varmista, että Ealloora-sovelluksen ilmoitukset ovat käytössä älypuhelimessasi.

8. Valmista

Nyt LEAK on valmis varoittamaan vedestä vuodon sattuessa.

Valmis!

Laitteesi toimii!

SVENSKA

1. Ladda ner appen

Ladda ner Ealloora appen från App Store eller från Google Play.

Installera Ealloora-appen och få aviseringar till din smartphone vid vattenläckage eller vid översvämning.

2. Skapa ett konto

Nytt konto

Ange namn, e-postadress, lösenord samt bekräfta lösenordet en gång till.

Befintligt konto

Om du redan har ett konto, logga in med din e-postadress och ange ditt lösenord.

The image shows two screenshots of the ealloora mobile application. The left screenshot displays the login screen with the ealloora logo at the top, followed by input fields for 'Email' and 'Password'. A red 'LOGIN' button is positioned below the password field, and a 'Forgot password?' link is located to its right. At the bottom, there is a 'REGISTRATION' link. The right screenshot shows the 'Registration' screen, which includes a back arrow and the title 'Registration'. It features an 'ACCOUNT DATA' section with a 'Name' input field, and a 'YOUR CHOICE DATA' section with 'Email', 'Password', and 'Confirm password' input fields. Below these fields are two checkboxes: 'I hereby fully take note of the privacy policy (mandatory)' and 'I consent to the processing of my data for promotional and marketing purposes'. A red 'CONTINUE REGISTRATION' button is at the bottom.

3. Registrera enheten

1. Klicka på symbolen  på startskärmen för att registrera din enhet.
2. Fyll i den ID-kod (8 tecken) som du vill hitta på etiketten på enhetens baksida.
3. Ge enheten ett namn.

4. Aktivera enheten

1. Lägg enheten på en vattenfylld platta (2 + mm av vatten). Läckagesensorn piper till två gånger.
2. Ta bort enheten från vattnet. Efter 15 sekunder, hörs tre korta pip som meddelar att enheten är aktiverad.
3. Placera enheten i det ställe som du vill övervaka.

5. Alarm

Vid översvämning eller vid upptäckt av vattenläckage har du 10 sekunder (indikeras med ett pipande ljud) att deaktivera enheten innan det egentliga larmet sänds iväg.

När det inte längre finns något vattenläckage eller översvämning, sänds ett meddelande till appen att situationen är över.

6. Deaktivering av enheten

För att stänga av enheten, håll den upp och ner i 15 sekunder. Enheten fortsätter att pipa tills den stänger av sig själv och skickar ett inaktiveringsmeddelande till appen.

7. Ta emot aviseringar till din Smartphone

Se till att aviseringarna för appen Ealloora är aktiverade på din smartphone.

8. Klart

Nu är LEAK klar att meddela dig ifall den upptäcker vattenläckage och / eller översvämningar.

Klart!

Din enhet är redo!
